Uggetti C. *see* Verri A., 86

Vallero E. *see* Verri A., 86
Van Den Bruel B. *see* Maes B., 544
Velázquez R. *see* Salvador-Carulla L., 147
Verri A. *Oral self-mutilation in a patient with rhombencephalosynapsys*, 86
Vesala H. *see* Patja K., 591

Walker J. *see* Chadwick O., 108
Webb O.J. *see* Dovey S., 553
Weber G. *see* Holt G., 685
Williams H. *Use of atypical antipsychotic Olanzapine and Risperidone in adults with intellectual disability*, 164
Wing L. *see* Beadle-Brown J., 12

Subject index

Access, Community Dental Services, fear of treatment, oral care, 45
Adolescents, behavioural difficulties, children, emotional difficulties, schools, 124
Adults, Europe, mental health, services, 685
adults, family structure, follow-up study, mid-life, residential services, 68
Affective disorder, autism, balanced translocation, monozygotic twins, 170
Age on onset, forensic, schizophrenia, 130
ageing, Alzheimer's disease, cognition, dementia, Down's syndrome, memory, 654
Ageing, life expectancy, mortality, survival, 591
All Wales Strategy, perceptions of stakeholders, planning, policy, 31
Alzheimer's disease, dementia, Down's syndrome, 138
Antidepressants, antipsychotics, hypnotics/anxiolytics, intellectual disability, psychotropic medication, residential settings, 666
Antiepileptic drugs, antipsychotic drugs, behavioural side-effects, phenobarbital, 155
Antipsychotics, atypical, mental health problems, Olanzapine, Risperidone, 164
Assessment/treatment, comorbidity, diagnostic criteria, eating disorders, research, services, 625
Attitudes, general practice, primary health care, 553
Autism, cerebellum, FMRP, fragile-X syndrome, mitral valve disease, neuropathology, Purkinje cell, sudden death, 81
Autism, changes in skills, longitudinal study, social impairment, 12
Autism, Down's syndrome, family history study, 562
α_2 macroglobulin, acute phase proteins, adults, depression, Down's syndrome, dormancy/hibernation, 644

Behaviour problems, challenging behaviour, children, risk factors, 108

Cerebral dominance, handedness, laterality, neurodevelopmental hypothesis, schizophrenia, 638
Chromosome 15q deletion, genetic subtype differences, intellectual functioning, maternal uniparental disomy, Prader-Willi syndrome, 25
Chromosome 21, comorbidity, Down's syndrome, prevalence, Tourette syndrome, 60
Community activities, identity, intellectual disability, staff management, 600

Dementia, diagnosis, test battery, 175
Disability, evoked potentials, IQ, performance ability, verbal advice, 567
Down's syndrome, mosaicism, normal intellectual development, 91
Dual diagnosis, hidden morbidity, supported employment, treatment appropriateness, 147

Epilepsy, intellectual disability, 529
Ethics, individualism, virtue ethics, 1
Everyday cognition, working memory, 579

low phenylalanine diet, untreated phenylketonuria, 53

Matrix model, mental health, services, 97

olanzapine, self-injurious behaviour, stereotypy, 677
Oral self mutilation,

Rhomboencephalosynapsis, 86

Quality assurance, quality evaluation, quality standards, residential care, 544
